

LAGO VISTA ISD – CLASS PLACEMENT PROFILE

Student placement is a complex process that begins in the Spring of the previous school year. Our goals in this process include classes that are heterogeneously grouped (a balance of boys and girls, ethnicity, achievement, behaviors, special needs, etc.) and to match teachers with students. In the Spring, the Counselor and Principal meet with teachers in grade level teams to blend a broad body of data (achievement, behavior, peer compatibility, special programs, etc) to create classes. During the summer the Counselor reviews the added data provided by this profile to finalize classes. The Principal and Counselor then assign teachers to these student groups.

If you have information you would like considered as we build classes, please complete the following profile and return to the LVES Counselor by June 5.
